ECO Green Equipment Announces new Crumb Rubber Plant sold to Green Tire Organization in Puerto Rico.

New system provides latest technology in tire and rubber recycling for region

SALT LAKE CITY, UT. October 1, 2015 — ECO Green Equipment, an international leader in the design and manufacturing of turnkey, cost-effective tire recycling systems, announced today the completion of a new ECO crumb rubber tire recycling plant system to be installed in Puerto Rico for the Green Tire Organization.

The new plant will be the first system for Eco Green in Puerto Rico and will provide the latest tire recycling technology for the city and surrounding area. The system will feature the latest shredding technology and separation equipment from ECO Green.

Commercially, the plant location will collect and process up to 600,000 car and truck tires a year while providing rubber output for molded products.

“We are looking forward to providing equipment for this plant in Puerto Rico,” said Mr. Brad Swenson, President of Eco Green Equipment. “Green Tire is an excellent organization and will provide excellent tire recycling services and processing capabilities for this area.”
